# CAMP VOLUNTEER PLEDGE

## Internet Safety and Privacy Policy

Camp exists to offer a safe, positive camping experience for children. Just as our campers' parents trust us to keep their kids safe during camp, they also expect us to protect their privacy and keep them safe even after camp ends. **Therefore, camp counselors should never post camper photos or identify campers by name on the Internet.**

This includes blogs, personal web pages, photo sharing sites such as SnapFish and Flickr, and social networking sites such as MySpace, Facebook, and Google+. We know that our dedicated camp counselors would never do anything intentionally to hurt a camper. Sadly, some people who use the Internet have ill intentions and might try to contact our campers through these types of sites.

Camp photos will be posted on our secure website exclusively for counselors, parents and campers to view and share. If you would like to post your camp photos on this site, please send them to your camp director. They'd love to see them!

## CONFIDENTIALITY

By volunteering for camp, you have obligated yourself to carefully refrain from discussing any patient's condition or personal affairs. Do not pass on information to other campers and visitors unless you have been given permission to do so by the camp director. In addition, all information seen or heard regarding campers & their families, directly or indirectly, is completely confidential and is not to be discussed, even with your family.

Your job as a volunteer requires that you govern yourself by the highest of ethical standards. This includes not asking for clinical information about a camper, nor seeking free clinical advice for yourself or your family from doctors/staff. Failure to recognize the importance of confidentiality is not only a breach of ethics, but could potentially involve legal proceedings. Please see the following page for more information about the protected health information of our campers.

It is my intention to volunteer and meet or exceed all standards and expectations outlined for me.

## HIPAA POLICY

### *What is HIPAA?*

HIPAA stands for Health Insurance Portability Act. HIPAA is a federal law that sets a national standard to protect medical records and other personal health information.

### *When did HIPAA become a law?*

Congress passed this legislature in 1996. Some parts of the law are currently in effect, however, medical facilities must be in compliance with HIPAA patient information regulations by April, 2003.

### *Is HIPAA applicable to all health care providers?*

Yes, HIPAA applies to hospitals, physicians, insurance companies, laboratories, dentists, ambulatory surgery centers, business offices, etc. Children's Healthcare of Atlanta is an applicable health care provider.

### *What is considered "health information"?*

Information can be related to past, present or future physical or mental health conditions. This includes oral, written or electronic (computer) information.

### *What is Protected Health Information (PHI)?*

The following is considered protected information about patients: addresses, dates, telephone/fax numbers, social security numbers, medical record numbers, patient account numbers, insurance plan numbers, vehicle information, license numbers, medical equipment numbers, photographs, fingerprints, e-mail/Internet addresses.

### *What is TPO?*

TPO stands for Treatment, Payment, Operations. HIPAA allows us to share a patient information for the purpose of treatment (providing care to patients), payment (getting paid for caring for patients), and operations (normal business activities). However if the use of the information does not fall under one of these categories, the hospital must have the patient's signed consent before sharing the information with anyone.

### *Does this impact patient information volunteers have access to?*

Yes. Your hospital should provide "sensitive" volunteer service areas with specific training and requirements regarding HIPAA. Some "HIPAA sensitive" volunteer service areas might include: lobby information desks, family waiting rooms, patient care areas, business office support.

### *What are some special tips volunteers should know?*

- Protecting the confidential health information of campers is the responsibility of everyone involved in their treatment and healing process, including volunteers.
- Be sensitive to patient confidential information. If it is information you wouldn't want shared about you, do not share it with others.
- Think before you talk about patient-specific information.
- Keep information to yourself if you overhear or see PHI unintentionally.
- Do not talk about campers in common areas.

**Remember when at camp.....  
What you see here,  
What you hear here  
When you leave here  
Let it stay here!**
