

# Preparing for Your Child's First Visit

Sibley Heart Center Cardiology is the group of 36 pediatric cardiologists (heart doctors for children) who care for patients at Children's Healthcare of Atlanta. Sibley Heart Center Cardiology offers services at 18 outpatient locations and more than 40 hospitals across Georgia, and will help you find the clinic closest and most convenient to you and your family.

## WHAT TO EXPECT

- Bring the medical referral form and/or the insurance referral form to your child's appointment.
- Arrive at least 15 minutes before your child's appointment. This will give you enough time to complete the forms our office needs.
- Bring a list of your child's medicines, including vitamins and any herbal medicines.
- After you have completed the forms, our staff will begin your child's exam. This will include measuring his heart rate, taking his blood pressure and measuring his height and weight.
- Your child's doctor will determine if other tests are needed.
- We cannot tell you how long your child's visit will take. The entire visit could take up to two hours. We thank you for your patience and understanding.
- Your child's doctor will not hurry through your child's exam. We provide complete, personal care to each patient. While this can sometimes take more time, you can be sure your child is getting the best care possible.
- During your child's appointment, you can talk to any staff member if you have questions or concerns. We want you and your child to feel comfortable.
