### Checklist:

- Fax all appropriate records to our office prior to the patient's visit. This includes office visit notes, imaging studies (X-rays, MRI, etc.) and lab results. If lab results are pending at the time records are faxed, make sure the completed results are sent over when available.
- If the patient had imaging studies, ask the family to bring a disc with the images to their rheumatology appointment.
- If the patient has seen other specialists related to their symptoms, send these records to us as well.
