			should be kent awake	e at least 2 hours later than their	

- Your child needs to sleep during part of the test. Children over 24 months should be kept awake at least 2 hours later than their normal bedtime the night before the test and awakened 2 hours earlier the day of the test. Do not allow your child to nap the day of the test. We do not sedate for this test. Study typically takes 1 to 1 ½ hours.
- 2. The patient must have clean hair, no oils, gels or lotions.
- 3. No refined/processed sugars or caffeine for 24 hours before exam (natural sugars are acceptable).
- 4. Patients must arrive 15 minutes prior to appointment to register in the Registration/Admissions Dept. 1st floor. If the patient is 15 minutes late prior to appointment time, patient will be cancelled.

## Preference for physician for EMG study:

- ☐ Children's Pediatric Neurology Practice
- ☐ Children's Rehabilitation Associates at Children's Healthcare of Atlanta
