

2025 ASPHO | Oral Presentations

TIME	PRESENTER/MODERATOR	TITLE	SESSION	OTHER SPEAKERS/ AUTHORS
WEDNESDAY, MAY 7				
11:30 a.m. to 12:30 p.m.	Robert Sidonio, MD, MSc	Unmet Needs in Children With Von Willebrand Disease: The Case for Prophylaxis	Non-CME Satellite Lunch Symposium	
2:15 to 3:30 p.m.	Megan Brown, MD, MSc	Surgical Management of Patients with Inherited Bleeding Disorders	Management of Disorders of Hemostasis	
THURSDAY, MAY 8				
1:30 to 2:30 p.m.	Ronak Dave, MD	Hyperhemolysis and Eculizumab Use in Sickle Cell Disease	Hematology Oral Paper Presentation	Senior Author: Satheesh Chonat
4:45 to 6 p.m.	Satheesh Chonat, MD	Advances in the Diagnosis and Management of Acquired Aplastic Anemia and PNH in Children and Adolescents	Education Session	
FRIDAY, MAY 9				
8 to 9:15 a.m.	Kristopher Knight, BS	Bioengineering Humanized L-Asparaginases with Less Toxicity Using Ancestral Sequence Reconstruction	Oncology Luminary Presentation With Selected Abstract Presentations	Kristopher A. Knight, Harrison C. Brown, Mathew S. Karpen, H. Trent Spencer, Christopher B. Doering, Sunil S. Raikar
10:15 to 11:15 a.m.	Liberty Strange, MD, MPH	Rurality, Care Delivery, and Clinical Outcomes in Pediatric Oncology	Education Session	
3:30 to 4:45 p.m.	Wayne Liang, MD, MS	Innovations in Pediatric Hematology Oncology Practice Addressing Workforce Challenges	Presidential Symposium	
SATURDAY, MAY 10				
7 a.m.	Amy Tang, MD	Hemoglobinopathies Special Interest Group		
8:15 to 9:30 a.m.	Katharine Brock, MD, MS, FAAHPM	Taboo Topics During End-of-Life Care: How to Respond to Uncomfortable Questions About Death and Dying	Education Session	
10 to 11 a.m.	Sharon Castellino, MD, MSc	Best of COG: Advances in Hodgkin Lymphoma	Children's Oncology Group - Committee Updates	
10 to 11 a.m.	Philip Lupo, PhD, MPH	Leveraging COG Resources for Epidemiologic and Population-Based Studies	Children's Oncology Group - Committee Updates

2025 ASPHO | Poster Presentations

SESSION	PRESENTER	TITLE	AUTHORS
THURSDAY, MAY 8 (3:45 TO 7:30 P.M.) AND FRIDAY, MAY 9 (7 TO 8 A.M.)			
015	Zuri Hudson, DO	Control of a Metastatic Adrenocortical Carcinoma With Cabozantinib and Local Therapy: A Case Report	Zuri Hudson, Matthew Santore, Anne Gill, Claire Stokes
021	Akshaya Arjunan, MD	Novel TP3::ROS1 Fusion in Systemic Juvenile Xanthogranuloma With Central Nervous System Involvement	Akshaya Arjunan, Alexis Carter, Claire Stokes
117	Katharine Brock, MD, MS, FAAHPM	The Scope of Practice of Inpatient and Outpatient Pediatric Palliative Care Within Pediatric Oncology	Heesu Park, Nicholas DeGroote, Rebecca Williamson Lewis, Katherine Lee, Anna Lange, Dio Kavalieratos, Katharine E. Brock
119	Tamara Miller, MD, MSCE	Automated Provision of EHR Data to National Childhood Cancer Center (NCCR) Registries	Tamara P. Miller, Yun Gun Jo, Edward Krause, Judy Lee, Sarah Falls, Johanna Goderre, Elizabeth Hsu, Kara Kelly, Pinki Prasad, Michael Scheurer, Vicki Soucek, Benjamin K. Watkins, Jennifer J. Wilkes, Lynne Penberthy, Richard Aplenc
127	Karen Effinger, MD, MS	A Computational Approach to Semi-Automate Cancer Treatment Summary Generation Using EHR Data	Karen E. Effinger, Andrew Hornback, Rebecca Williamson Lewis, Benoit Marteu, Benjamin Kyle Lovelace, Paulette Djachechi, Naveen Muthu, May D. Wang, Wayne H. Liang
225	Sadie F. Mason, MD	Assessing the Impact of Transplant on Hospitalization Rates for Children With Sickel Cell Disease	Sadie F. Mason, Ann E. Haight, Suhag Parikh, Muna Qayed, Elizabeth O. Stenger, Marianne M. Yee, Kirsten M. Williams
301	Sara Graciaa, MSN, CPNP	Extravascular and Breakthrough Hemolysis Risk in Pediatric PNH in the Era of Proximal and Terminal Complement Inhibition	Sara Graciaa, Nabil Saleem, Patricia McElfresh, Gabrielle Dean, Staci Arnold, Michelle L. Schoettler, Michael Briones, Satheesh Chonat
347	Robert Sidonio, MD, MSc	Immune Tolerance Induction (ITI) in Hemophilia A Patients With Inhibitors: Per Protocol Interim Analysis From the MOTIVATE Study	Carmen Escuriola Ettingshausen and Robert F. Sidonio, Jr., on behalf of the MOTIVATE Study Group
411	Martha Stewart, MD	Large Single Center Experience on Cold Agglutinin Syndrome in Sickel Cell Disease	Martha Stewart, Marianne M. Yee, Ross Fasano, Michael Briones, Sara Graciaa, Satheesh Chonat
503	Waitman Aumann, MD, MS	Safety and Efficacy of a Small Molecule Inhibitor of EYA2 in SIX1 Expressing Pediatric Leukemias* <small>*This poster also will be on display in the Louisville Convention Center Lobby, Wednesday, May 7, 3:30 to 4 p.m.</small>	Waitman Aumann, Julie Bashirian/Dongdong Chen, Lyndsey Alexander, Travis Reese, Lukas Gardner, Xiang Wang, Rui Zhou, Heide Ford, Dan Wechsler
521	Ryan J. Summers, MD	Nelarabine in T/Myeloid Mixed Phenotype Acute Leukemia: Clinical Outcomes and in Silico Sensitivity	Ryan J. Summers, Hope L. Mumme, Anjali Khanna, Manoj Bhasin, Tamara P. Miller, Sunil S. Raikar

2025 ASPHO | Poster Presentations

SESSION	PRESENTER	TITLE	AUTHORS
FRIDAY, MAY 9 (9:15 A.M. TO 2:15 P.M.)			
130	Zahra Jiwani, DO	Structural Deprivation and Psychosocial Service Utilization in Pediatric Cancer Survivor Care	Zahra Jiwani, James Klosky, Jordan Marchak, Xu Ji, Rebecca Williamson Lewis, Heeju Sohn, Naadira Upshaw, Karen Effinger
150	Kelsi Hagerty, MMSc, CGC	POT1 Tumor Predisposition Syndrome in Pediatric Oncology Patients: A Case Series	Kelsi Hagerty, Christopher Porter, Bojana Pencheva, Joshua Muñiz, Himalee Sabnis, Melinda Pauly
222	Emily Sullivan, BS	Developing a Dual-Antigen Car T-Cell Strategy Against B/Myeloid Mixed Phenotype Acute Leukemia	Emily C. Sullivan, Gianna M. Branella, Vishva Patel, Moira Fuente, Sunil S. Raikar
322	Kelsi Hagerty, MMSc, CGC	SRP54-Associated Severe Congenital Neutropenia With Shwachman-Diamond-Like Features: A Case Series	Kelsi Hagerty, Christopher Porter, Nabil Salim, Bojana Pencheva, Staci Arnold
346	Robert Sidonio, MD, MSc	Efficacy and Safety of Plasma-Derived Von Willebrand Factor/Factor VIII Concentrate (Wilate®) Prophylaxis in Children and Adolescents With Von Willebrand Disease: Post-Hoc Analysis of the WIL-31 Study	Robert F. Sidonio Jr., Leonid Dubey, Kateryna V. Vilchevska, Adlette Inati, Claudia Djambas Khaya
412	Akshaya Arjunan, MD	Proximal Complement Activation in Acute Complications of Pediatric Sickl e Cell Disease	Akshaya Arjunan, Maya Maarouf, Adrianna Westbrook, Justin Yoo, Jayre Jones, Will Briones, Nwanna Ifendu, Seema Patel, Michael Briones, Clinton Joiner, Sara Graciaa, Sean R. Stowell, Michelle L. Schoettler, Satheesh Chonat
414	Neha Desai, MD	Occurrence of Intracranial Hemorrhage in Pediatric Patients With Sickl e Cell Disease	Neha Desai, Nick Ettinger, Bryan Philbrook, Grace Kalmus, Patricia Zerra, Marianne Yee
526	Himalee Sabnis, MD, MSc	Development of a High-Risk Leukemia and Lymphoma Program for Children, Adolescents and Young Adults	Himalee Sabnis, Winslow Whitehurst, Christopher Porter, Bojana Pencheva, Melinda Pauly, Michelle L. Schoettler, Kirsten M. Williams, Alan Bidgoli, Ryan J. Summers, Tonya Bennett, Wayne Liang, John Bergsagel, Elyse Bryson, Lois Chukoian, Stacy Senn, Sunil S. Raikar, Benjamin Watkins, Sharon M. Castellino, Muna Qayed
530	Joshua Muñiz, MD	Acuity of Illness in Adolescent and Young Adults With Newly Diagnosed Lymphoma	Joshua Muñiz, Xu Ji, Liberty Strange, Katherine A. Lee, Sharon M. Castellino
546	Robert Lisac, MD	Moyamoya Syndrome in Patients With Trisomy 21 and Acute Lymphoblastic Leukemia: A Case Series	Robert Lisac, Ryan J. Summers, D. John Bergsagel, Frank Keller, Bryan Philbrook, David Wrubel, Gary Woods, Sunil S. Raikar
