**Guest Access to the Internet**

How to connect to the internet using a desktop browser

**Step-by-step instructions for patient families:**

**Step 1:** Open Wi-Fi settings. Choose “Guest-Access.”

**Step 2:** Click the green “Access Internet as a Guest” button at the top of the window.

**Step 3:** Enter your personal e-mail address. Note, you must do this before you can connect to the internet. Click the green “Connect Now” button.
Step 4: Click the green “Sign On” button.

Step 5: Next, you will see the Acceptable Use Policy. Review the policy and click the green “Accept” button to connect to the internet. If you click the green “Decline” button, you will not be able to connect to the internet.

Step 6: Click the green “Continue” button to complete the connection.
