Guest Access to the Internet

How to connect to the internet using a mobile browser

Step-by-step instructions for patient families:

**Step 1:** From your mobile device, choose “Guest-Access.”

**Step 2:** Click the green “Access Internet as a Guest” button at the top of the window.

**Step 3:** Enter your personal email address. Note, you must do this before you can connect to the internet. Click the green “Connect Now” button.
Step 4: The “Account Created” message will appear. Click the green “Sign On” button.

Step 5: Next, you will see the Acceptable Use Policy. Review the policy and click the green “Accept” button to connect to the internet. If you click the green “Decline” button you will not be able to connect to the internet.

Step 6: Click the green “Continue” button to complete the connection.
