Performance Areas

Essential Job Duties: Participates in the implementation of a comprehensive Child Life Program through developing skills in order to assess and implement therapeutic programming for assigned population.

Tasks to develop:
1. Assesses and implements therapeutic programming for assigned population.
2. Involves the child and family in the plan of care.
3. Uses play therapeutically to promote healing, coping, mastery, self-expression, control and learning. Selects activities to address individualized needs of patients and families including their developmental, physical, social and emotional needs.
4. Recognizes and responds to symbolic play and alternative forms of communication.
5. Provides interactions and activities to match the developmental and current emotional status of patients and families.
6. Provides normalization activities during hospitalization within a non-threatening and supportive environment (i.e. peer interaction, opportunities for play, and access to playrooms, toys, games, and videos).
7. Participates in special events by identifying appropriate patients, serving as a liaison to volunteer services, and helping to implement programming.
8. Supervises and coordinates volunteers in assigned areas to maximize their use in providing opportunities for play and normalization to patients and families.

Essential Job Duties: Develops skills to assess, implement and evaluate the coping needs of patients and families.
Tasks to develop:
1. Facilitates adaptive coping strategies for patients and families while respecting their culture beliefs.
2. Identifies patient specific stressors and utilizes stress reduction techniques, such as non-pharmacological pain management, to facilitate adaptive coping.
3. Helps the patient process their fears and/or misconceptions by providing developmentally appropriate interventions.
4. Provides suggested coping strategies individualized for each patient while encouraging healthy adaptation and development of these selected coping mechanisms.
5. Provides parent and staff education regarding the impact of hospitalization on children and developmentally appropriate coping techniques (i.e. positioning for comfort, guided imagery, counting and breathing).
6. Selects and adapts bereavement resources and interventions based on each child’s and family’s developmental level, emotional status, cultural beliefs, temperament, and learning style.
7. Makes appropriate referrals to outside organizations that provide emotional and developmental support to children and families who are experiencing such needs related to hospitalization, illness and bereavement.

Essential Job Duties: Develops skills to assess, implement and evaluate the preparation and educational needs of patients and families.

Tasks to develop:
1. Selects and utilizes diagnosis specific teaching tools and preparation equipment appropriate for the population served.
2. Provides developmentally appropriate education regarding diagnosis and treatment.
3. Selects and adapts surgical/procedural preparation materials and interactions, based on patient’s and family’s developmental level, emotional status, temperament, learning style, and physical abilities.
4. Presents materials in a developmentally appropriate manner that allows for interaction from the patient and family in order to assess further educational needs while addressing misconceptions.
5. Describes sensory experiences, sequence of events, timing, and duration of procedures in developmentally appropriate language.
6. Provides post-procedural support and follow-up to patients and families.

Essential Job Duties: Integrates Child Life principles into daily practice.

Tasks to develop:
1. Introduces Child Life role and services to families.
3. Responds appropriately to patient’s and family’s emotional cues and behaviors.
4. Sets and maintains appropriate limits with patients and families during hospitalization.
5. Intervenes to help extend or expand play or activities.
6. Recognizes patient’s individual qualities or behaviors to promote self-esteem.
7. Includes the patient in all conversations that occur in his presence.
8. Demonstrates sensitivity to parents’ concerns and uses the parents as a resource when developing goals and interventions.
9. Provides the patient with appropriate choices and respects the patient’s decision.
10. Establishes clear expectations during hospitalization and helps the patient meet these expectations.

Essential Job Duties: Develops skills to participate in inter-disciplinary health care services to achieve family-centered care.
Tasks to develop:
1. Includes parents as part of the healthcare team.
2. Collaborates with hospital personnel in identifying and managing patient’s psychosocial needs, including making appropriate referrals.
3. Participates in unit rounds, patient care conferences and inter-disciplinary rounds.
4. Advocates for the psychosocial needs of patients and families.
5. Educates staff regarding how to provide an environment that addresses the psychosocial needs of patients and families (i.e. family-centered care, developmentally appropriate language and age appropriate coping techniques)
6. Participates in the implementation of department and unit based customer service initiatives.
7. Upholds expectations set forth by JCAHO.

Essential Job Duties: Develops skills to document and maintain updated patient information pertaining to services provided.

Tasks to develop:
1. Demonstrates knowledge of current charting procedures through clear, concise, timely documentation and chart reviews.
2. Maintains records required for tracking departmental statistics when appropriate.

Essential Job Duties: Maintains professional development.

Tasks to develop:
1. Demonstrates values of this organization (e.g. integrity, respect, nurturing, excellence and teamwork).
2. Works with the child life staff and the interdisciplinary team to promote excellence in customer service.
3. Follows dress code.
4. Demonstrates punctuality.
5. Demonstrates eagerness and enthusiasm for learning.
6. Demonstrates adaptability and flexibility.
7. Follows through on specific assignments.
8. Demonstrates initiative and motivation.
10. Demonstrates creativity.
11. Adheres to relevant policies and procedures.
12. Advocates for positive change.
13. Self-evaluates provision of child life services as they relate to the job description and makes changes as needed.
