ICD-10 documentation

Seven key impacts to ICD-10 documentation

1. Disease or disorder site
2. Acuity and/or encounter status of treatment
3. Etiology, causative agent, or disease type and injury/ poisoning cause, intent, activity at the time of the event and place event occurred
4. Underlying and associated conditions
5. Manifestations
6. Complications or adverse events
7. Supporting info such as lab values or socioeconomic key impacts to ICD-10 documentation

Most commonly used diagnoses

ICD-9 Name	ICD-9 Code	ICD-10 Code	ICD-10 Name	Documentation tips
Acute respiratory failure	518.81	J96.00	Acute respiratory failure, unspecified whether with hypoxia or hypercapnia	Respiratory Failure <ul style="list-style-type: none"> • Specify acuity (acute, chronic, acute and chronic) • Differentiate respiratory failure from respiratory distress syndrome, respiratory arrest and post-procedural respiratory failure • Detail if hypoxia or hypercapnia accompany respiratory failure • List any related smoke exposure (e.g. second hand cigarette smoke)
		J96.01	Acute respiratory failure with hypoxia	
		J96.02	Acute respiratory failure with hypercapnia	
		J96.90	Respiratory failure, unspecified, unspecified whether with hypoxia or hypercapnia	
		J96.91	Respiratory failure, unspecified with hypoxia	
		J96.92	Respiratory failure, unspecified with hypercapnia	
Abdominal pain, unspecified site	789.00	R10.0	Acute abdomen	Abdominal pain <ul style="list-style-type: none"> • Identify the region or quadrant of the abdomen where the symptom resides (e.g. right upper quadrant, left lower quadrant, epigastric, periumbilical, generalized, etc.)
		R10.9	Unspecified abdominal pain	
Care involving other specified rehabilitation procedure	V57.89	Z51.89	Encounter for other specified aftercare	Refer to 7 key impacts of ICD-10 Documentation
Cough	786.2	R05	Cough	

ICD-9 Name	ICD-9 Code	ICD-10 Code	ICD-10 Name	Documentation tips
Cystic fibrosis with pulmonary manifestations	277.02	E84.0	Cystic fibrosis with pulmonary manifestations	Cystic Fibrosis <ul style="list-style-type: none"> List any infectious organism present Identify any pulmonary or intestinal manifestations Clarify any cause and effect relationship between cystic fibrosis and other conditions (e.g. pneumonia, meconium ileus)
Dysphagia, unspecified	787.20	R13.0	Aphagia	Refer to 7 key impacts of ICD-10 Documentation
		R13.10	Dysphagia, unspecified	
Follow-up examination following other surgery	V67.09	Z09	Encounter for follow-up examination after completed treatment for conditions other than malignant neoplasm	
Headache	784.0	G44.1	Vascular headache, not elsewhere classified	Headache <ul style="list-style-type: none"> Identify the type, such as: <ul style="list-style-type: none"> Cluster, tension, or paroxysmal hemicranias (specify when episodic or chronic) Post traumatic (acute or chronic, include info regarding any post-concussional syndrome) Drug-induced (provide info regarding associated medication)
		R51	Headache	
Urinary tract infection, site not specified	599.0	N39.0	Urinary tract infection, site not specified	Refer to 7 key impacts of ICD-10 Documentation

The ICD-10 Provider Specialty Tool Kit is meant to assist providers with documentation best practices necessary for the transition from ICD-9-CM to ICD-10-CM. This tool kit includes the most commonly used diagnoses for a specialty using 2012 claims data for top encounters and top number of dollars per diagnosis. The tool kit can be used as a quick reference guide for providers and can also be shared with Practice Managers. This tool kit is not meant to be a coding cross walk and therefore should not be used as such. Questions regarding this tool kit and/or ICD-10 should be submitted via email to ICD10@choa.org.
