Healthcare of Atlanta

Saving You Time So You Can Save Lives

Online Resources

UpToDate: This is a point-of-care resource to assist with diagnosis and treatment. It includes more than 7,400 peer-reviewed topics. Each review is linked to MEDLINE abstracts and a complete drug information database. It is available through Epic for CME credit. (Please ask librarian for more information.)

EBSCOHost: This provides access to MEDLINE, the Cumulative Index of Nursing and Allied Health Literature (CINAHL), PsychINFO, Cochrane reviews, Health Business Elite and the Rehabilitation Reference Center.

AAP's Pediatric Care Online: This point-of-care quick reference guide provides access to the American Academy of Pediatrics' (AAP) *Textbook of Pediatric Care*, *Bright Futures* and *Red Book*. It also includes a signs and symptoms search and other diagnostic tools.

PubMed: Provided by the National Library of Medicine, PubMed includes more than 19 million citations for biomedical articles from MEDLINE and additional life science journals. It includes access to full-text articles.

VisualDx: This is a differential-diagnosis-decision support tool at the point of care. It includes more than 25,000 images representing more than 1,200 visually identifiable diseases, drug reactions and infections. It is also accessible via mobile device.

Electronic Books: Titles include The Harriet Lane Handbook, Nelson's Textbook of Pediatrics, Oski's Pediatrics and AACN Protocols for Practice, among others. Search A to Z for a full list of electronic books.

OVID: This includes access to MEDLINE, Cochrane Reviews, Embase, BioSIS reviews, and Health and Psychosocial Instruments (HAPI).

A to Z Journal List: This offers online access to all of our full-text journals and e-books and a list of available print journals.

Lippincott Procedures (Nursing): Provides real-time access to step-by-step guides for over 1,600 evidence-based procedures and skills in a variety of specialty settings. Each entry provides complete instructions, including the equipment needed, preparation guidelines, implementation steps, special considerations, patient teaching information, documentation, quick lists and references. Video clips are included to clarify complex procedures. Users can scroll through an alphabetical list; browse by discipline, category or subcategory; or perform a search to identify a particular procedure.

ClinicalKey: This is a point-of-care clinical information service for physicians and other healthcare professionals. It provides access to a unique combination of medical reference books, medical journals, drug information, and practice guidelines.

Services and Training

Clinical Practice	Education	Research
Services	Services	Services
<p>Providing assistance in formulating specific therapeutic, diagnostic or prognostic questions to find published evidence</p> <p>Setting up automatic alerts about newly published evidence</p> <p>Attending case reports, staff meetings or committee meetings and providing research support for attendees</p>	<p>Setting up and maintaining a blog for clinical questions, answers, presentation pearls and links to cited studies</p> <p>Setting up automatic alerts for publications by authors or on specific topics</p> <p>Assessing and providing feedback on locating and selecting published evidence</p>	<p>Providing assistance in developing strategies for literature reviews and procuring interlibrary loans for hard-to-find articles</p> <p>Providing assistance with background literature searches for grant applications and institutional review boards</p> <p>Providing assistance in identifying specialized information resources or databases for research proposals</p>
Training	Training	Training
<p>Using point-of-care information tools</p> <p>Providing individual and group training on how to search for and identify high-quality evidence</p> <p>Filtering PubMed searches for clinical evidence</p>	<p>Creating a personal digital library in PubMed or EBSCOHost</p> <p>Retrieving, storing and organizing citations</p> <p>Setting up journal alerts so electronic tables of content are received via email</p> <p>Answering questions about copyright compliance and helping secure permissions</p>	<p>Providing knowledge management solutions and guidance to better organized electronic information so that it can be shared easily</p>
