

It's easy to become an

♥ ORGAN ♥

donor

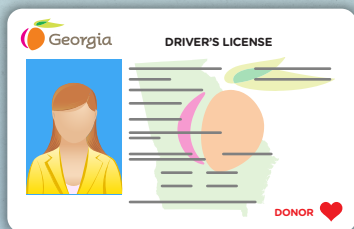

1

Sign up online with your state's registry at donatelifegeorgia.org.

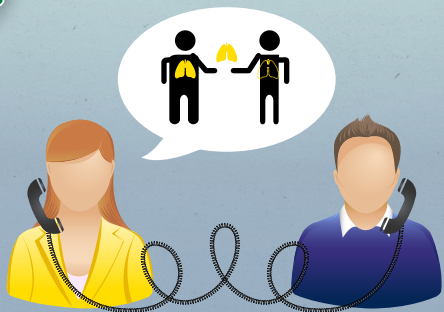

2

Designate "organ donor" on your license or ID card.

3

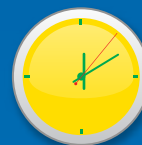

Notify your family of your decision.

SAVING

♥ LIVES ♥

Organ donation can save the lives of up to eight people and help 50 others. With more than 116,000 people—including nearly 2,000 children and teens—currently on the transplant waitlist, the need for more donors is urgent.

Every

11 MINUTES

another name is added to the waitlist.

ANYONE CAN BE A POTENTIAL DONOR *regardless* OF AGE OR RACE.

LIVING DONORS

can donate a kidney or portion of a liver, lung, intestines or pancreas. Last year, there were more than 5,000 living donors.

Visit choa.org/donatelife to learn more about the difference a donor can make to someone in need.
