

When illnesses and injuries happen

Know where to take your child

Use the following information to determine which care setting is most appropriate for your child.

Primary care

- Best place for regular care
- When you have questions about your child's health, call his primary care doctor
- Visit during weekdays and by appointment for:
 - Checkups
 - Physicals
 - Flu shots and other vaccines
 - Common illnesses and minor injuries

Urgent Care Center

- When your pediatrician isn't available
- For minor injuries and illnesses
- Open when your primary care doctor's office may be closed, including evenings, weekends and holidays
- No appointment needed

Emergency Department

- For serious injuries or illnesses
- Open 24 hours a day, seven days a week
- No appointment needed

If you think your child's illness or injury is life-threatening, call 911.

To help you decide if your child needs urgent care or emergency services, use the chart to the right.

1. Find your child's condition in the list on the right.
2. On the same line, find the **X** in one of the columns to the right of the condition.
3. The **X** will show you if you should take your child to our **Urgent Care Center** or **Emergency Department**.
