## Tips to Avoid NC during IC May 28, 2013

Research

- Make sure your consent matches your protocol
- Set up a filing system that works for you
- Customize your signature page(s)
- Add reminder tabs\*
- Highlight\*
- Only print what you need for each subject
- Confirm version date
- Don't pre-fill forms
- Review the form
- Know your consent form, know your study (and study staff)

## During (1)

- Make sure the appropriate staffer is obtaining consent
- Assure appropriate steps are taken for those who are non-English speaking, illiterate, cognitively impaired, minors, etc.
- Be sure to obtain all signatures and initials from subject or LAR and appropriate staff and don't forget the date

# During (2)

- Complete all optional portions
- Make proper corrections, if there are errors
- Obtain authorization in addition to consent
- Review the form before the subject leaves

#### After

- Make notes to file to explain deviations from the norm
- Review the documents before filing
- Have a filing system that works for you and makes sense

# If there is NC, can I use the data?

Re-Consent	No Re-Consent
Signature missing from consent or assent form	Person Obtaining Consent (POC) was CITI certified, but not study staff and the PI provides a statement that the POC was adequately trained on the study
Signed by someone other than the parent or legal guardian	Any minor issues with date and or time
POC was not CITI certified and not approved study personnel	Expired consent used, but no changes to the risk level or subject care/study visits
Expired consent used and there were changes to the risk level and or subject care/study visits	Missing witness signature (unless required by the regulations or the study sponsor)
POC signature is missing
